

DRY MOUNTING TISSUES

HOT PRESS

UNIMOUNT CLASSIC™ DRY MOUNT TISSUE

This premium grade tissue is widely regarded as the “industry standard” for the permanent mounting of all types of flat artwork. It is especially popular among bespoke framers and photo processors due to its lay flat properties. Unimount Classic™ is a high grade adhesive on a porous, pH neutral tissue.

Unimount Classic™ is suitable for mounting posters, prints, photographs, inkjets, pastels, charcoals, colour copies, maps, charts, blue prints and plans.

Unimount Classic™ is compatible with a wide variety of substrates, including mount board, pulp and grey boards, corrugated and foam centred boards, hardboard, MDF and of course, Hot Press's own specialist mounting substrate, White Display Board.

VISTAMOUNT™ DRY MOUNT TISSUE

Vistamount™ is an economy grade dry mounting tissue, which is a vast improvement on its predecessor Eco-Bond™. Most often used by contract framers, this cost effective tissue offers a permanent bond for posters and prints. It is suitable for mounting artwork to MDF and most types of mounting board.

ARCHIVAL GRADE TISSUE

This conservation grade tissue incorporates a chalk-buffered layer that prevents acids from migrating through the tissue. Favoured by professional conservators and art restorers, this product was specifically developed for museum pieces and other archival quality artwork.

Archival grade tissue has enjoyed a recent increase in popularity among framers seeking to enhance their dry mounting services with a superior grade.

UNIMOUNT CLASSIC™ DRY MOUNT TISSUE (ROLLS)

Code	Size
H4011	520mm x 25m (20.5" x 82')
H4019	650mm x 25m (25.5" x 82')
H4020	650mm x 50m (25.5" x 164')
H4021	650mm x 100m (25.5" x 328')
H4036	1040mm x 25m (41" x 82')
H4037	1040mm x 50m (41" x 164')
H4038	1040mm x 100m (41" x 328')
H4044	1300mm x 25m (51" x 82')
H4045	1300mm x 50m (51" x 164')
H4046	1300mm x 100m (51" x 328')

UNIMOUNT CLASSIC™ DRY MOUNTING TISSUE (CUT SHEETS)

Code	Size (Packs of 100 sheets)
H4106	127mm x 179mm (5" x 7")
H4108	152mm x 204mm (6" x 8")
H4110	204mm x 254mm (8" x 10")
H4114	254mm x 305mm (10" x 12")
H4118	305mm x 406mm (12" x 16")
H4122	406mm x 509mm (16" x 20")
H4126	509mm x 610mm (20" x 24")

VISTAMOUNT™ DRY MOUNT TISSUE

Code	Size
H4150	622mm x 25m (24.5" x 82')
H4151	622mm x 100m (24.5" x 328')
H4153	1040mm x 25m (41" x 82')
H4154	1040mm x 100m (41" x 328')
H4155	1245mm x 25m (49" x 82')
H4156	1245mm x 100m (49" x 328')

ARCHIVAL GRADE TISSUE

Code	Size
H4303	520mm x 27.4m (20.5" x 90')
H4306	610mm x 27.4m (24" x 90')
H4309	927mm x 27.4m (36.5" x 90')
H4312	1040mm x 27.4m (41" x 90')
H4315	1232mm x 27.4m (48.5" x 90')

SUITABILITY CHART

This chart highlights the most effective combination of mounting substrates and Hot Press adhesives.

Use the following key as a guide;

UC = Unimount Classic™

VM = Vistamount™

DM = Dry Mount Film

AF = Acid Free Mount Film
