

## PRESS RELEASE

### **HOT PRESS MAKE IT 1000!**

World renowned press manufacturer's Hot Press Ltd have this week produced their 1000th unique HGP360 (Hot Glass Vacuum Press, 1095mm x 1705mm). Being the first and only range of vacuum presses produced with a glass top, the patented Hot Glass Vacuum Press is the preferred choice for many framers and photographers all over the world.

Commenting on the HGP360, Operations Manager Gary Marsh said: "As with all of our products, each vacuum press is manufactured to consistently high standards, with the HGP360 taking approximately 2-3 days to manufacture. The HGP360 is an extremely popular press and now that we have manufactured over 1000, it is clear that customers throughout the industry are keen to get their hands on this durable and impressive model."

Ideal for all professional mounting, heat sealing and canvas bonding processes, the Hot Glass Vacuum Press is available in a variety of sizes, from the HGP220 (635mm x 940mm) and HGP260 (890mm x 1195mm) through to the HGP560 (1276mm x 2496mm), in order to suit all customer needs and requirements.

Designed to give maximum operating efficiency, each model can easily handle the widest range of materials from foam board and wood, to photos, art prints and delicate fabrics. Incorporating the innovative, Hot Press patented glass heating system, the HGP Vacuum Press range produces a constant, even spread of heat across the work surface, leading to a superior quality of surface finish.
