

JETMOUNTER™

The JetMounter™ range of pressure-sensitive laminators delivers professional finishing at affordable prices. They are ideal for mounting and laminating all types of artwork, and are ideal for picture framers, photographers, copy shops, schools, colleges and in-house design departments. These versatile laminators can handle rolls of material up to 25mm thick, including card stock, foam board, MDF or rigid PVC board.

The JetMounter™ range features variable-speed, electric drive, with forward and reverse actions. The high-quality rollers assure even pressure across the width of the machine, while the convenient foot control pedal leaves hands free to handle input materials.

With a choice of fourteen laminate finishes available, the JetMounter™ is an economical and practical finishing solution for anyone.

A stand and extra material supply shafts are available for both the JM44 and JM54.

Tension clutches for superior control are standard on the JM44 and JM54
